The Honorable Elaine L. Chao  
Secretary of Transportation  
US Department of Transportation  
1200 New Jersey Ave, SE  
Washington, DC 20590

RE: Support for the City of Oskaloosa's **Oskaloosa Bypass Planning Study** BUILD Grant Application

Dear Secretary Chao:

Oskaloosa Engineering and Manufacturing enthusiastically supports the City of Oskaloosa and Mahaska County's application for funding through the US Department of Transportation's BUILD Transportation Discretionary Grant Program.

Oskaloosa Engineering's mission stresses "convenient location in southeastern Iowa, we are able to deliver high quality products in a cost-effective way, from coast to coast". A strong transportation network is imperative to our success. Completing the planning study to develop bypasses along the east side of the City of Oskaloosa will ensure the safe, efficient movement of people and goods for decades to come.

The BUILD-supported planning study will allow the City of Oskaloosa, Mahaska County in partnership with the Mahaska Chamber and Development Group to prepare a plan that will evaluate the safety and capacity of the corridor, enhance safe and efficient freight transport avoiding urban areas, improve response times for emergency vehicles to essential services - including healthcare providers, provide a safer route for students from the William Penn University, and will bolster pedestrian and bicyclist amenities, supporting both increased community vibrancy and better health outcomes.

For Oskaloosa Engineering specifically, the BUILD-supported project will allow us to leverage our location in the heart of America.

We are pleased to support the City of Oskaloosa and Mahaska County's BUILD Grant application for the **Oskaloosa Bypass Planning Study**. This project is important to the economic vitality of the region; it will improve the quality of life and allow the City and Mahaska County to improve the condition of key infrastructure.

Sincerely,

Brandon Graham  
President, Oskaloosa Engineering and Manufacturing
